CERTIFICATION OF COMPLIANCE

Metaltech[®] mission is committed to provide the best quality services and products to our customers. With this Certificate of compliance, we want to address the functionality of the Work Stand Sawhorse product¹ as a scaffold.

Our team reviewed the data available from the authorized organizations. The best direct application can be found outlined in Subchapter 4. Construction Safety Orders, Article 22. Scaffolds-Various Types at Cal OSHA which are the most restrictive for this type of product.

We are proud to state that the Work Stand Sawhorse designed by Metaltech[®] conforms and exceeds all the construction requirements as specified under subsection (d), section 1647 - Horse Scaffolds, Subchapter 4 - Construction Safety Orders of Article 22 of the California/OSHA Regulations² (referred as "Regulations").

According to these Regulations, a person may access a plank of appropriate strength positioned between two separate Work Stand Sawhorse up to a height of 5' making accommodations for the person to access the top step of the sawhorse as long as the capacity stated on the labels is respected.

The related guidelines of the Work Stand Sawhorse are available by accessing [Work Stands Sawhorse – Metaltech](#).

For any question, do not hesitate to contact our customer service at: customerservice@metaltechna.com.
